

The Future of Medicine Foundation™, Ltd
(Orthomolecular and Nutritional Biochemistry Medicine Advisor)

Michael J. Gonzalez, DSc, NMD, PhD, FANMA, FACN
BIOGRAPHY

Michael J. Gonzalez, D.Sc., Ph.D. is a Professor at the Nutrition Program, School of Public Health, Medical Sciences Campus of the University of Puerto Rico and is on the Adjunct Faculty at the Universidad Central del Caribe School of Medicine. He is a Fellow of the American College of Nutrition, has published over [250 peer-reviewed scientific articles](#).

Dr. Gonzalez is one of the first Latino and Puerto Rican inductees in the [Orthomolecular Medicine Hall of Fame](#). He has won several research awards for his work on nutrition and cancer. In 2013, he was exalted as Distinguished Ponceño in the area of Medicine for his contributions in various areas of nontoxic disease therapy, and in 2015 he was selected as member to the prestigious Puerto Rican Academy of Arts and Sciences and to the Iberoamerican Academy of Culture and Sciences.

A leader in the development of non-toxic cancer treatments. Dr. González is one of the founders of InBioMed, leaders in the development of non-toxic chemotherapy treatments for cancer. The findings of their work with Intravenous Vitamin C as an anti-cancer agent, published in 2002, were confirmed by the NIH in 2005. They published the first Phase-I clinical study utilizing Intravenous Vitamin C for treatment of terminal cancer patients in 2005, and also published in 2005 the most comprehensive review on Vitamin C and Cancer, as a follow-up on the work of two times Nobel Laureate, Dr. Linus C. Pauling. He has brought many new concepts into the scientific field, such as the Bio-energetic theory of carcinogenesis, the physiological modulation concept, the systemic saturation phenomenon of intravenous vitamin C, the metabolic and mitochondrial correction model for disease treatment and prevention.

Dr. Gonzalez has served as consultant for several companies where he has been responsible for designing formulations of nutritional supplements and pharmaceutical products. He has also been a consultant for The Center for the Improvement of Human Functioning (now Riordan Clinic), in Wichita, Kansas, and the Centro Medico Regenerativo in Bayamon, Puerto Rico.

Dr. Gonzalez is studying quantum physics in order to better understand energy and information. This includes laser therapy, exosomes, mitochondrial enhancement and stem cells as therapeutic tools for degenerative diseases. He has a clinical practice in nutritional medicine in Ponce, Puerto Rico, serves as a nutrition consultant for the national basketball team of Puerto Rico, and is part of the Medical Commission of the Puerto Rican Basketball Federation.

In January 2021, Dr. Gonzalez accepted an invitation from Jack Craciun III, Chairman/CEO of ITM Ltd., and the Members of the Board of Directors and the Board of Advisors of The Future of Medicine Foundation™ Ltd., to become a Founder/Member of its Board of Advisors, and now serves as the TFMF Orthomolecular and Nutritional Biochemistry Medicine Advisor.

Books: Doctors Gonzalez, Miranda-Massari and Saul's book "[I Have Cancer What Should I do: The Orthomolecular Guide to Cancer Management](#)" provides evidence-based recommendations for an integrative approach for those dealing with cancer and seeking to improve quality of life and survival. In 2014 they published the book "[New Insights Vitamin C and Cancer](#)" for Springer-Larger. Dr. Gonzalez has published over 250 peer reviewed scientific articles.
