Prof. Daniel Weber PhD; MSc
BIOGRAPHY

Prof. Daniel Weber, PhD, MSc (<http://danielweberinternational.com/>) is internationally recognized as a passionate and informative speaker, author, promoter of herbal Evidence Based Medicine (EBM), and pioneer in complementary medicine. He has studied in China since 1984, visiting more than a dozen times and receiving numerous awards and an honorary professorship. He did his Traditional Chinese Medicine (TCM) residency at Shu Guang Hospital Shanghai in 1988, has a Master of Health Science from the University of Technology in Sydney Australia, and is advisor to Hangzhou TCM Institute in Hangzhou, China. Prof. Weber currently is completing his research Doctorate in integrative oncology at Charles Sturt University in Australia.

Prof. Weber is the Vice-Chair of the oncology section of the World Federation of Chinese Medical Societies and a visiting professor at Tianjin University, lecturing post-graduate students. He does research at both the Guang 'Anmen Hospital in Beijing and at Tianjin University. He is President of Panaxea International (panaxea.com) which manufactures and distributes pharmaceutical grade complementary medicines to practitioners. In addition, Prof. Weber has a postgraduate diploma in Somatic Psychotherapy as well as in Adult Education and is a registered psychotherapist (MPACFA).

Not just an academic, but also a committed clinician, innovator and educator, Prof. Weber has been in practice in Sydney Australia since 1977 and created the first English language database for Chinese herbal medicine in 1992, for which he was awarded his PhD. This database was awarded 'Innovations in Australian Design' and put on exhibit in the Powerhouse Museum, Sydney.

Committed to creating a dialogue between all types of health care professionals, Prof. Weber is the President of the Association for Integrative Oncology and Chinese Medicine (aiocm.org) and has authored many books and published articles on integrative medicine (integrativecancernetwork.com.) Stemming from his work in complementary cancer treatments, he recently authored *Introduction to Integrative Oncology; Herbs, Compounds and Supplements in the Cancer Clinic*, and *Dui Yao, The Art of Formula Construction* and *The Seven Stochastic Events of Cancer*. His recent book *Botanical Oncology* comes with an extensive on-line database for practitioner support and he is on the editorial boards of the 'Journal of Integrative Medicine (China)' and the 'International Journal of Complementary and Alternative Medicine'. He is Advisor to the Global Consortium of Oncology and Chinese Medicine (Beijing/Bethesda) and is deeply committed to research and EBM, and works to promote integrative clinics. His site complementaryoncology.com has ongoing research and articles of interest on complementary cancer treatments.

Prof. Weber founded the Association of Integrative Oncology and Chinese Medicine and is currently the president. He is Advisor to the Global Consortium of Oncology and Chinese Medicine (Beijing).

Dwight McKee, an integrative oncologist, Scientific Director of Life Plus International, and ITM Nutrition and Integrative Medicine Advisor who has shared a lasting friendship with Jack Craciun III, Chairman/CEO of ITM (China) Ltd. & ITM (US) Ltd that spans four decades, introduced Prof. Weber to Craciun regarding ITM business developments pertaining to “The First Dragon™ Global Chinese Cross Cultural Exchange,” and “The Future of Medicine” enterprise, which have led to the establishment of The First Dragon Foundation™ Ltd.

Prof. Weber has a deep commitment to research and to the inclusion of complementary oncology in an integrative approach to cancer treatment, and therefore agreed to join the Board of Advisors of The First Dragon Foundation™ Ltd. His passion and expertise will be a valuable asset to the Foundation's China/global focus, which will include projects pertaining to Integrative Medicine, Integrative Cancer Research, and Clinical Trials which include, but are not limited to, Low-Grade Non-Hodgkin's Lymphoma.
